

# Printer Crusher

## PERFORMANCE CHARACTERISTICS:

4Kw/5Hp Maximum Power

1 Minute Cycle time\*

550mm x 420mm Chamber Opening

50 cycles per hour\*

Recommended Loading: Hand Load

Recommended Out-feed: Gravity using Retracting Table

Manual Hydraulic Controls

Stationary Application

**Evashred** does not guarantee throughput rates at any given location.

Throughput figures are based on factory tests only.

\*Cycle time does not include loading machine

\*\*Standard size printers under ideal conditions.

Specifications are subject to change without notice. Contact your nearest distributor/ agent for up-to-date specifications prior to purchase.

# Printer Crusher

## TECHNICAL SPECIFICATIONS:

### Physical Dimensions:

Total Height	2260mm
Total Length	1610mm
Total Width	930mm
Door Opening	560mm x 430mm
Power Pack Dimensions	
Total Height	1100mm
Total Length	520mm
Total Width	480mm

MACHINE NAME:	PRINTER CRUSHER
Number of Motors	1 x 4 KW (5 HP 3 Phase)
Door Opening	560mm x 430mm
Loading Height	680mm
Chamber Opening	550mm x 420mm (Max Printer Size)
Total Height of Machine	2260mm
Floor Footprint Dimensions	1610mm x 930mm
Total Weight Including power Pack (Approx)	550KG

**Evashred** does not guarantee throughput rates at any given location.
